

CLAIMS

What we claim as our invention is

1. A system which operates sluice gates to stop content buyers from seeing or knowing about any content they are not allowed to buy
2. a system which stops content going out to the wrong buyers rather than the present systems which simply tell content owners where their content has wrongly gone to
3. a system which gives content owners the ability to control who buys their content
4. a system which stops the content reaching ineligible buyers in the digital market place.
